

### For corner / near-edge printers

The AG2 is a multi-purpose wax/resin product and is Toshiba's most popular ribbon type for near edge printers. Its highly versatile performance fulfills the needs of most standard applications. It lays down a clear and sharp printed image on most label stocks, from uncoated and glossy papers to synthetics. Withstanding heat up to 100°C (212°F) with a blackness of 1.6 (ODR) the AG2 will give good levels of mechanical resistance and, as with all Toshiba ribbon products, its superior back coating will prevent static build-up and clogging, and offer the very best in printhead protection.

**Toshiba AG2 ribbons – high quality smearless printing.**

### Characteristics

|                                  |   |
|----------------------------------|---|
| Excellent material compatibility | Excellent for high speed printing         |
| Clear sharpness of 90° barcodes  | Very good smudge resistance and blackness |

### Specifications (Performances expressed in this sheet are for the black ribbon)

| Ink          | Type  | Wax/Resin                    |
|--------------|---|------------------------------|
|              | Melting point   | 80°C (176°F)                 |
| Carrier      | Film thickness  | <9µm                         |
|              | PET thickness   | 4.5µm                        |
|              | Tensile strength  | >300 N/mm <sup>2</sup> (MD)  |
| Back Coating | Silicone product based  | Friction coefficient Kd <0.2 |
| Colours      | ● Black, ● Yellow, ● Magenta, ● Cyan, ● Blue (Reflex blue C),<br>● Red (1788 C), ● Green (Green C), ● Brown (484 C) |                              |

Ribbon is anti static build up treated. Storage: 12 months, 5-35°C (40-95°F), 20-80% Humidity

### Certifications and Approvals (For other standards, please contact us)

|   |  |   |  |
|---|--|---|--|
| <b>LFGB</b>   | Food contact (Europe)  |  | UL/CSA Legibility and durability of the printed label. |
|  | 1935/2004/EC   |   |  |
| <b>Heavy metals</b>   | EC 98/638.   |   |  |
| <b>Ames test</b>  | The ribbon is not mutagenic, does not cause DNA modifications.   |   |  |
| <b>TSCA</b>   | The ribbon does not contain any of the toxic substances mentioned in this list.  |   |  |
| <b>California Proposition 65</b>  | The ribbon does not contain any of the chemicals mentioned in this list. (except for carbon black which as far as we know is present in every black TT ribbons). |   |  |
| <b>EC Directives</b>  | 1999/45/EC and 2001/59/EC.<br>The ribbon does not contain any substance classified as dangerous for health.  |   |  |

## Always Choose Toshiba Ribbons for Toshiba Printers

The wide range of Toshiba ribbons available today ensures that our valued customers have different product options for virtually every thermal transfer application. Using Toshiba ribbons ensures optimum print quality causing minimum wear on working parts - in particular to the printhead.

Before a ribbon is certified by Toshiba it must first undergo stringent tests to ensure its continuity and reliability in the field. It is assessed on a variety of receiving materials, and at every speed and temperature combination. Only once this procedure is complete and deemed successful will the ribbon receive its certificate of approval.

| Other Approved Ribbon Types Available |  |                                    |
|---------------------------------------|--|------------------------------------|
| Standard applications                 | Wax  | Wax/Resin                          |
|                                       | Super wax resin                              | Full resin                         |
| Specialist resins for                 | Wash-care & textile labelling                | Harsh chemical and industrial uses |
|                                       | Extreme automotive and aviation environments |                                    |

Colour ribbons are also available in all qualities including HazChem orange.
